

13 Tech Products and Solutions Making Life Easier, Safer, Stress-free and Productive

If you are not using this tech products and solutions in this age you are missing out, and subjecting yourself and others to unnecessary stress, and avoidable dangers and situations.

Colossus TechNovation Nigeria's leading hi-tech company specializing in Renewable Energy, Security, Safety, Home Automation and Business Solutions committed to technovating smart solutions and making the incredible affordable.

This month we resolved to do something crazy to show love to Nigerians in the spirit of valentine. We are offering Free Advisory Service on the following indispensable tech Products and Solutions!

- 1.** Renewable Energy System : we can help you cut the cost of running Generators and Electricity Bill by 50% with our Solar, Inverter or Wind Turbine System ranging from 1 KVA to 500 KVA

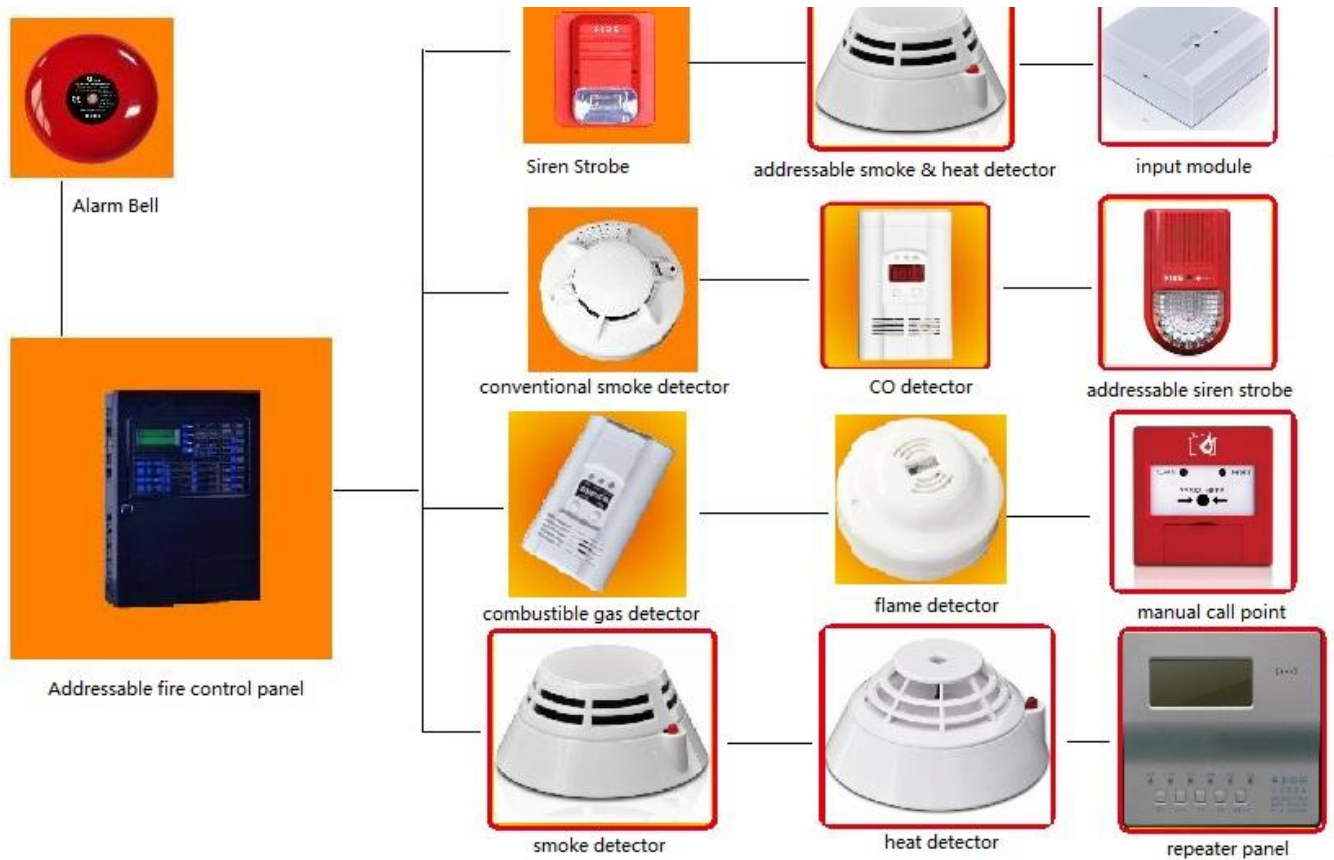

2. CCTV & Surveillance Solutions: Security is very important, and CCTV cameras enhances your surveillance, prevention, tracing, identifying and investigating crime and fortifying security.

we supply and install wireless and wired CCTV cameras, Spy cameras, solar Floodlight with CCTV camera, Solar Streetlight with Security cameras and surveillance.

3. Fire, Smoke and Gas Detection and Alarm System With this system in place in your home or office you can prevent fire outbreak by 99%

4. Burglar Alarm System; prevent or arrest crime with this system. We ll be glad to show you how it works. It amazes why many don't know and use this powerful security device.

5. Remote Controlled Gate System; Now you can control your gate with a remote from the comfort of your car without bothering anyone or stressing yourself when going out in the

morning or coming home late in the night. Everyone needs this for security and comfort.

6. Video Door Bell System; With this, you can see and speak with any visitor knocking at your home or office gate or door through the indoor monitor in your home and/or from your

mobile phone remotely wherever you are located in the world and decide to let the person in or not.

7. Wireless Intercom System; with this you can talk to anyone in any room in your home or office.

8. Automatic Water Pump System; this system serves as your Water Pump Manager; it switches on your water pump whenever there is the power supply, and switches it off immediately the water tank is filled up automatically. With this device no more shortage or wasting of water or resources on the

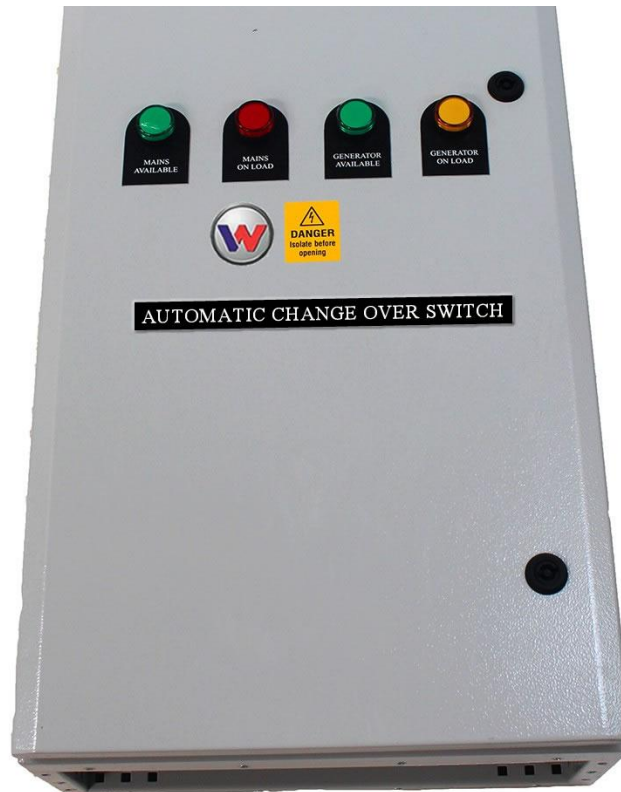

electricity bill because there is no one at home to switch the water pump on or off. Now you can rest assured.

9. Automatic Change Over; this system serves as your power supply manager, our automatic changeover system removes the stress of going to switch your gen-set on or off every time.

The system turns on your Gen-set and switches over from Gen-set to the National Grid Power Supply, and shuts down your Gen

Set automatically immediately power supply is restored.
This is an amazing and high fidelity and hi-tech system, and yet very affordable.

10. Smart Lock System ; this serves as your door keeper - the system enables you to control who accesses your home or office or bedroom, hotel room, or out-of-bound secured places. You can grant access to authorized persons to gain access via their Finger-prints, Card, PassCode and from your Mobile App (you can also grant your guests access to your home, office,

guesthouse or hotel rooms remotely from the mobile app wherever you are located.

11. Solar Streetlights ; With our intelligent Streetlights and floodlights there will be no more blackout in your compound or street, as the lights turns on automatically in the evening and turns off in the morning. We also have the street lights and floodlights with inbuilt CCTV camera which you can monitor

on pc monitors or on your mobile Phones. Ideal for Homes, Offices, Estates, Hotels, Government Roads and Streets lighting Projects etc.

12. Rechargeable Mosquito Attraction Shock Light ; This multifunction rechargeable light attracts and shocks mosquitoes to death. Insecticides are not only dangerous to your health but very expensive to sustain but with this device mosquitoes and malaria will be eradicated in your home, hotels, yard and community. We also have Solar Mosquito Attraction Shock Light for outdoor and gardens.

13. Solar Electrical Appliances we import, distribute, install and service Solar Electrical Appliances (Low energy consumption appliances designed for solar energy systems are regular electricity, such as; Solar Inverter Air-conditioners, Solar Water Pumps, Solar Freezers/Fridges, Solar Washing Machine, Solar Pressing Irons, Solar Ceiling and Stand fan, Solar Lights, Solar TVs.
Note: These are AC/DC appliances powered by both Solar and the regular Electric power, but consumes low energy.
